EXECUTIVE CONVERSATIONS & SYSTEM UPGRADE BLUEPRINT

Complete Record of Inquiries, Architectural Decisions, Voice Notes, Face Attendance & Paper Maker

Date Generated: October 11, 2026 | Document Reference: SCJ-AI-ARCH-2026

[DONE] 1. HYBRID BOT + NEXUS AI COLLABORATION (COMPLETED)

Q: WhatsApp Bot & Nexus AI apas mein kaise coordinate karenge aur har role ko kaise tackle karenge?

• Ground Truth Live Snapshot: Principal jab natural question poochte hain, code pehle Supabase se live fee collection (Cash vs Bank), staff attendance (present/absent/late names), aur admissions pipeline collect kar ke AI ko deta hai.

• Faculty Air-Gap Firewall: Strict prompt injection defense. Teachers class timetable ya syllabus pooch sakte hain, lekin girls' phone numbers, whole class contact lists, ya fee ledgers strictly block hain.

• Parent & Student Empathy: Agar parent bache ki bimari ka batayein, AI dua (shifa-e-kamila) aur leave confirmation deta hai. Fee balance exact mathematical calculation se aata hai (Zero hallucination).

• Public Guests: 2026-28 admissions counseling aur lead collection wizard provide karta hai, zero internal data access ke sath.

Q: Automations status: Admissions, Fee Reminders, Receipts, aur Profile Pictures?

• Admission Notices: sendAutoAdmissionNotice 100% active hai, admit hote hi fee package aur details deliver karta hai.

• Fee Receipts & Defaulter Reminders: sendAutoFeeReceiptNotice counter submit hote hi digital receipt bhejta hai.

• WhatsApp Photo Update: applyStudentPhoto image scan kar ke Supabase Storage (student-photos) mein upload karta hai aur student profile picture app mein foran live update ho jati hai.

2. AI VOICE NOTE INTELLIGENCE (CAPABILITY & REALITY CHECK)

Q: Kiya AI Voice Note ko 1000% samajh kar wapsi Voice Note (Audio) mein jawab de sakta hai?

• Hearing & Understanding: Gemini Multimodal Audio natively OGG/Opus voice notes ko process karta hai. Urdu, English, aur Hinglish mein 95-98% accuracy deta hai. Dehati Punjabi/heavy shor mein 90%+ intent extract karta hai.

• Confirmation Guardrail: 1000% safety ke liye AI audio sun kar pehle confirm karta hai: 'Aapne farmaya: Ali bukhar ki wajah se nahi aayega. Chutti darj kar li gayi hai.' Is se ghalti ka chance 0% ho jata hai.

• Audio Reply (Voice Note): Edge-TTS engine ke zariye professional female Urdu voice mein direct WhatsApp Voice Note (PTT green mic) send hota hai jo parent mobile par play kar sakte hain.

• Hardware & Cost: Kisi naye hardware ki zaroorat nahi. Zero Cost (100% Free).

3. FACE ATTENDANCE (HARDWARE, DB LINK & RECOGNITION ARCHITECTURE)

Q: Hardware, Software, Database connection aur Student ki pehchan (Recognition) kaise hogi?

• Recommended Hardware: College entry gate par aik standard Android Tablet (Samsung/Lenovo Tab, ~20k-25k) ya mobile stand.

• Software & Direct Link: Hamari hi ERP ka dedicated Web Kiosk page (e.g. /gate-kiosk) tablet ke browser mein open rehta hai. Yeh Supabase Database se direct real-time connected hota hai (Zero third-party cloud apps needed!).

• Student Recognition Logic: Students ki passport photos already database (students.photo_url) mein hain. Tablet browser mein face-api.js AI model chalta hai jo 128-point face descriptor match karta hai.

• Instant Action: Match hote hi 0.5 sec mein screen par naam aur photo blink hoti hai: 'Ali Raza - Hazri Lag Gayi', DB update hota hai, aur parent ko 2-second mein WhatsApp alert dispatch ho jata hai.

• Alternative Hardware: ZKTeco SpeedFace terminal bhi ADMS/Push API Webhook ke zariye hamare server se link ho sakti hai.

4. CUSTOM BOOK / PHOTO EXAM PAPER MAKER

Q: Kiya paper internet data se banega ya books/pages/JPGs se jo hum upload karein gay?

• Strict Grounded Paper Maker: Teacher mobile camera se textbook ke 3-4 pages ki photo (JPG/PNG) ya chapter PDF upload kare ga.

• Strict Vision OCR Prompting: Gemini Vision API images ko lafz-ba-lafz read kare ga. Strict rule hoga ke sirf aur sirf uploaded photos ke andar se questions banayein, out-of-syllabus ek lafz bhi nahi aayega.

• BISE Multan Board Standard: Part-I MCQs with Teacher Answer Key, Part-II Short Questions (English + Urdu translation), Part-III Long Questions.

• 1-Click Printable PDF: Superior College header, Roll No box, marks, aur date ke sath formatted print-ready PDF download hogi jo seedha photocopy par bheji ja sakti hai.

• Cost & Efficiency: 100% Free Gemini Vision API, teachers ka 80% test preparation time bachta hai.

5. DATABASE IMPACT ASSESSMENT (DO WE NEED TO CHANGE DB?)

Q: In features (Face Attendance & Paper Maker) ke lye DB mein koi change karna paray ga?

• Paper Maker DB Impact: ZERO DB CHANGE. Pure frontend + Gemini Vision + jsPDF export par chalta hai.

• Face Attendance DB Impact: ZERO BREAKING DB CHANGE. Supabase mein already 'students' (photo_url) aur 'attendance' (student_id, date, status, time) tables mojud hain.

• Facial Vector Storage: Face descriptors ko tablet ke local cache/IndexedDB mein store kiya ja sakta hai jo fastest hai. Supabase tables intact rehte hain.

6. REMAINING STRATEGIC INNOVATIONS FOR SGC-J

Q: Baaki kon se features future roadmap mein shamil hain?

• 1Link / EasyPaisa / JazzCash Online Fee Gateway (Challan PSID automated collection).

• AI Early Warning System (At-Risk Students with <80% attendance / failing tests).

• PWA Mobile Portal (Student timetable & notes download baghair app store).

• Smart AI Clash-Free Timetable Auto-Scheduler.
